

# The Kiss That Missed

## How to make a dragon headpiece

### You will need...

- The dragon template (or your own version)
- Two pieces of coloured card
- Some white paper
- A pencil
- A black felt tip pen
- Scissors
- Ruler
- A stapler
- Glue

1. Print out the template or use it to draw your own templates
2. Cut out the head band templates and draw round them on the back of one of your coloured pieces of card / paper.
3. Cut out the two pieces of the headband and attach them together with either glue or a few staples.
4. Cut out the templates for the wings and horns. Draw round the templates on the back of the other piece of coloured paper or card.
5. Cut out the wings and horns, then put them to one side.
6. Cut out the eye templates and draw round them on white paper.
7. Cut out the eyes and draw on the pupils using a black felt tip.
8. Stick the eyes onto the headband with glue, attaching them near the middle of the headband where the two pieces are joined together.
9. Attach the horns to the headband, using glue or staples.
10. Attach the wings to either side of the headband (near where it will sit by your ears) using glue or staples. Bend back the wings slightly so they stick out.
11. Stick the ends of your headband together so they form a circle.

Your dragon headband is now complete, well done!
